<p>Business Philosophy</p> <hr/> <p>Our team concentrates on the financial and investment needs of high-net-worth individuals and small businesses by helping our clients develop strategies to manage their personal and corporate finances. We stress a long-term approach to investing and emphasize financial planning to help our clients determine their financial needs and risk tolerance. However, we accommodate investors for whom a short-term speculative investment approach may be appropriate. Portfolio performance and client satisfaction are our primary business objectives. We differentiate ourselves by providing exceptional customer service to our clients.</p> <p>174</p>
